Reading

SHOPPING BY PHONE

On the walls of an underground station in central Seoul, South Korea, there are a lot of pictures of food and drinks: bananas, meat, rice, coffee, even pet food. But these are not **advertisements**. This is the world's first 'virtual' supermarket, called *Homeplus*.

The supermarket is unusual because you use the special *Homeplus* app on your smartphone to go shopping. When you want to buy something, you use this **app** to scan the barcodes of the products you want. You put them in your online **shopping trolley** and then you pay by phone. You haven't got any heavy bags to carry because the supermarket **delivers** everything to your house for you.

South Koreans like shopping online and millions of them have smartphones, but are they ready for this type of shopping? 'Young Koreans use their smartphones to do a lot of different **tasks** every day,' says a *Homeplus* virtual store manager. 'Our customers work really hard and don't have enough time to go to the supermarket. Our store helps them save time.' So, is this the future?

Writing

An email

- 1 Read Jenny's email. What is her problem with money?

Hi Gina,
I get £5 a week pocket money, but I spend it all. How can I save my money?
Please help!
Jenny

Hi Jenny,
I have the same problem! Try writing down everything you buy for a week and how much it costs. Do you spend a lot on food and drink, for example? Don't spend money on things you don't need. Make a sandwich at home, and don't buy sweets every day.
Put some money in your money box when you get it. Ask for five £1 coins so you can do this. Sometimes I try to earn some money from my family. Maybe you can do jobs, for example, wash the car or water the plants. But be realistic – £5 isn't a lot!
Good luck,
Gina

A description of a person you admire

- 1 Read Patrick's description of a person he admires. Why was Judith by the river?

One person I admire is Judith, a girl who lives on my street. She's older than I am but she's in my sister's class and they're in the same swimming club as well.

She's got a dog so she often takes it for walks by the river at the back of our house. Last winter a small boy fell into the river and couldn't swim. Judith heard him scream and didn't stop to think. Although the water was very cold, she jumped in to rescue him. The boy disappeared under the water, but Judith stayed calm and pulled him out. A neighbour saw them and went to help them get out of the water. They were both fine after they got warm again.

I admire her because she saved the boy's life, but she says it was nothing special! She is very brave. The boy's parents think she is a hero and I agree.

- 2 Read the description again. Answer the questions.

Hi Emma,

How are you? We're staying in a really unusual holiday home for two weeks. It's a tall, old, white lighthouse in Somerset. It's 33 metres high with 120 stairs! There are eight floors with three bedrooms, a living room, a big, modern kitchen and a bathroom. The bedrooms all have small, new showers and the views of the sea are amazing. All the walls are round of course, but the rooms are bigger than you think. The top floor has the big, old light, but it doesn't work now. The lighthouse is 180 years old but everything is modern inside and there's even Wi-Fi. What do you think? Isn't it amazing?!

Reading

- 1 ★ Read the text about cars in the future. How are they different from the cars we have now?

WHERE'S THE DRIVER? >>>

Imagine going into town to go shopping. You arrive at the station. The shopping centre is a 20-minute walk away, but you have a better idea. You get in a pod – a small car. You can't drive, but that's no problem, because the pod doesn't need a driver. It has a computer! There's a screen, so you surf the web or play computer games. Is this science fiction? No, it will soon be reality.

A hundred driverless pods will soon be on the road in the British town of Milton Keynes. They will travel on the pavement, but their special computer program will use GPS, HD cameras and sensors to navigate safely. Each pod can carry two people and travel at a maximum speed of about 19 kph. They save time and are better for the environment, because they don't cause pollution.

Google is also developing a 'self-driving car' by adapting normal cars. The US states of Nevada, Florida and California permit driverless cars on normal roads with other traffic.

So, in the future you may have the opportunity to download an app onto your smartphone and call a driverless pod to take you where you want to go. Another option, of course, is to walk!

An opinion essay

- 1 Read the question and the opinion essay. Does the writer agree or disagree with the question?**

How do you imagine your future? Will your life be very different from your parents'? Write an essay with the title: 'My life will be the same as my parents' lives. Do you agree?'

Give us your opinion.

Most people agree that nowadays life is very different from twenty years ago, so I don't think that my life will be exactly the same as my parents' lives. However, I don't think that it will be completely different.

For example, I'm sure that I will go to university, like my parents. If I can, I will look for a good job near where they live. It isn't as easy as it was, but I'm optimistic.

Some people say that the world is a smaller place because of the Internet, while others believe that young people stay at home for longer. In my opinion, I'm more adventurous than my parents. When I finish university, I will probably work abroad for a while. My parents never did that!

In conclusion, I think I will have more opportunities than my parents, but it might be more difficult to find a secure job.

- 2 Read the essay again. Tick (✓) the opinions from the essay.**

Reading

- 1 ★ Read the text about a town in Canada. What is Churchill trying to do about polar bears?

POLAR BEAR ALERT

Churchill, on Hudson Bay in Manitoba, Northern Canada, is the polar bear capital of the world. The town has about 800 **inhabitants** and close by there are about the same number of bears!

The town of Churchill and the bears lived together peacefully for 300 years with only two fatal bear attacks. However, climate change has made **co-existence** more difficult. The ice **season** in Hudson Bay has got shorter, and this has made it difficult for them to find food in spring and autumn. So, many bears are **starving** and coming to look for food in Churchill. Recently a bear injured two people at night.

Churchill wants bears and humans to co-exist, so it has a Polar Bear **Alert** programme, managed by Bob Wilson of Manitoba Conservation. The idea is not to kill the bears, but to make them scared of people so they run away. Bob has different ways to scare the bears: a pistol with blanks, a noisy air horn, firecrackers, even a paintball gun! There is also a special bear 'jail' if they don't run away. Then, Manitoba Conservation takes these bears back into the tundra by helicopter.

Bob and his colleagues patrol Churchill 24-hours a day. In November, one of the most dangerous months, there are often 20 alerts a day. Luckily, most **encounters** between people and bears in Churchill haven't been serious. One woman threw a bag of shopping at a bear to scare it away. Last year, there were more than 160 similar incidents in one week.

Most of the bears are sub-adult males. 'Teenagers,' said one officer. 'They're the ones that get into trouble.'

- 2 ★★ Match the words in bold in the text with the definitions.

- 1 Summer, winter, spring or autumn. season
- 2 When different people or things live together. _____
- 3 A warning to tell people something dangerous might happen. _____
- 4 When a person or animal is very hungry because there is no food to eat. _____
- 5 The people who live in a place. _____
- 6 When people or animals meet by chance. _____

- 3 ★★ Read the text again and answer the questions.

- 1 How many polar bears live near Churchill?
About 800.
- 2 What is the effect of climate change on the people and bears?

- 3 Have they attacked anyone in the town recently?

- 4 What does the Polar Bear Alert programme try to do?

- 5 What does Bob use to frighten the bears?

- 6 What do they do with bears that don't leave the town?

- 4 Write three or four questions to ask Bob Wilson or one of the people who saw a bear in the town. Then write the answers – you can invent them!

An email refusing an invitation

Hi George,

Thanks for writing to me about the camping trip next weekend. I'm sorry, I'd love to go with you but I can't. My cousin's getting married that weekend. I didn't tell you before because I completely forgot about it. My mum told me months ago and I put it in my phone, but then I lost the phone!

He's going to have the party on the beach. I've never been to a beach party before so it'll be fun. All my cousins are going to be there. I haven't seen them since last summer. So how about another weekend?

Sorry again! If you can't change the dates, have a great time. I'll send you some photos of the party.

Enjoy yourselves!

Reading

- 1 ★ Read the text about different amusement parks. Which has one of the highest roller coasters in the world?

A fun day out

The first amusement parks opened in the USA in the 1870s, and the first **roller coaster** appeared in 1884. Now amusement parks are popular all over the world, but they're not all the same. Here are a few examples from different parts of the world.

Crococaurus Cove, Darwin, Australia

This **aquarium** and theme park has big and small crocodiles and you can stand very close to them. There are lots of other attractions, too. You can have your photo taken with a baby "croc" or you can feed the snakes and crocodiles.

Universal Studios, Singapore

This theme park is small but exciting! For many people the best **ride** in the park is the *Transformers*. Visitors sit in a small car and go on a fantastic 3D **battle**. Modern technology creates some very real fire, water and smoke effects. For people who don't like rides, there's also the beach, an aquarium and other attractions based on popular films.

Window of the World, Shenzhen, China

This theme park has **replicas** of 130 famous **monuments** from around the world, including the Eiffel Tower (one third of the size of the real one), the Pyramids of Giza, the Coliseum in Rome, Niagara Falls and the Grand Canyon! There are also cultural events from around the world, and indoor water and ski parks.

Six Flags Magic Mountain, California

This amusement park is famous for its roller coasters! It has 18, the most in the world, including one of the tallest in the world! But if you're afraid of roller coasters, Six Flags also has themed areas with concerts, shows, games and over a hundred other rides. It's very near Hollywood so it has appeared in a lot of famous films and TV series. Some of the rides are themed, e.g. *Batman*, *Superman: escape from Krypton* and others.
