Halloween in Ukraine

Halloween is one of the most popular holidays in the USA, Canada, Great Britain and Ireland. Every year, All Saints' Day is accompanied by costume parties, decorating houses and visiting neighbors with the words "Trick or treat" ("Candy or death").

The popularity of American culture spread Halloween to the whole world. Traditionally, this holiday in Ukraine is celebrated on the night from October 31 to November 1.

Mandatory attributes of Halloween in any country are "scary" outfits and decorations made of pumpkins. If you cut a smile pattern on a vegetable and put a flashlight or candle in the middle, you will get the most famous symbol of All Saints' Day — a Jack-o'-Lantern. Such creepy decorations were installed as early as the 19th century to protect against evil spirits.

The traditions of dressing up in costumes of all kinds of scary characters and begging for candy "in exchange for life" arose relatively recently, only in the 20th century. Halloween costumes have evolved significantly over the past century. At first, the costumes were images of ugly emaciated people. It looked far from festive and rather frightening. But already by the beginning of 2000, people began to prefer bright images, and the holiday itself turned into a show. Specific games and fortune-telling are often held on Halloween.

Day of Ukrainian writing and language

Teachers and students of "Suzirya" joined the Radio Dictator of National Unity - 2023.

127 students of the main institution wrote "Roads of Ukraine". For the first time, students of the 8th and 9th grades took part in such an event. Emotions just went off the scale!

Everyone was looking forward to the direct activation from the studio. And now... The pens quickly flashed in their hands. Everyone began to listen to Oleksiy Hnatkovsky's reading in order not to miss anything, to write everything down and "...to know: at the end of the road, a sleepless window with yellow light and native warmth awaits."
